SPSU Records Over 800 Admissions, Launches Cutting-Edge Courses : A Visionary Era Under Prof. Prithvi Yadav

Udaipur: Sir Padampat Singhania University (SPSU), Udaipur, has reached new heights of academic excellence and industry collaboration under the leadership of Vice Chancellor and Chairman, Prof. (Dr.) Prithvi Yadav. With over 800 new admissions in 2024, the university is reaffirming its commitment to delivering world-class education through innovation, strong industry ties, and student-centered growth. Prof. Yadav, alongside Registrar Dr. Uday Prakash Singh, Admission Director Sanjeev Kumar, and Dean of the Faculty of Management Dr. Sadananda Pushti, announced a year of exceptional achievements, exciting new initiatives, and academic programs designed to meet the needs of today's globalized workforce.

Record Admissions: SPSU Attracts Over 800 New Students

In 2024, SPSU recorded more than 800 enrollments, a milestone reflecting its growing reputation as a center of excellence in education. The increase in admissions spans a range of undergraduate, postgraduate, and PhD programs, including a noticeable surge in international student registrations. Prof. Yadav high-

lighted that this reflects the university's sustained commitment to academic quality, industry readiness, and holistic student development. "Our goal is to provide a platform where students can excel academically, grow personally, and become leaders in their respective fields," Prof. Yadav stated.

The university's consistent effort to align its programs with global standards has made it a preferred destination for students, especially in fields like engineering, management, and the sciences. "We are proud to witness a rise in international enrollments, which enriches our campus culture and strengthens SPSU's global footprint," he added.

Industry-Oriented Courses: Preparing Students for the Future

Prof. Yadav has been instrumental in ensuring that SPSU stays ahead of the curve in preparing students for the challenges of a rapidly evolving job market. To achieve this, the university has expanded its partnerships with leading industry players, introducing specialized, industry-oriented courses across all departments.

One of the most notable collaborations includes a part-

nership with Xebia, which offers courses in cutting-edge technologies such as Artificial Intelligence (AI), Machine Learning (ML), Full Stack Development, and DevOps. Larsen & Toubro (L&T) has joined hands with SPSU to provide training in VLSI, Embedded Systems, Cyber Security, Data Science, Electric Vehicles, and Digital Manufacturing.

Prof. Yadav emphasized that these collaborations are more than academic—they are pathways for students to gain hands-on experience and practical skills. "By integrating industry needs into our curriculum, we ensure that our students graduate with the competencies required to excel in today's competitive job market," he remarked.

Other key partnerships include SAS for Business Analytics, FL Smidth for Cement Manufacturing, and JK Cement for a unique BBA in Marketing Management, which combines business education with industry-specific insights.

Launch of New-Age Programs for 2025-26

Looking ahead to the 2025-26 academic year, SPSU is set to introduce a series of innovative programs designed to meet the demands of an evolving global workforce. Among the new offerings are:

- B. Design (Fashion Design): A course aimed at fostering creativity and innovation in the fashion industry.
- BBA in Liberal Arts: A unique program blending business with communication and creative arts, offering special-

izations in Performing Arts and Corporate Communication.

- BBA, LLB: A five-year integrated law course, providing students with both business and legal expertise.

- BBA Sports Management: A dynamic program for those looking to merge business acumen with the sports industry.

- MBA Tech: A forward-thinking five-year course that integrates management with technology.

- B. Tech in Paint Technology: A specialized engineering program preparing students for careers in the paint and coatings industry.

- BBA Analytics and MBA Data Science: Advanced degrees that focus on the growing fields of data science and business analytics.

These courses are designed to equip students with specialized knowledge and practical skills, ensuring that they are prepared for the demands of their chosen careers. "Our new-age courses are tailored to provide students with the tools they need to thrive in the future workforce. We are committed to offering programs that are both relevant and forward-thinking," Prof. Yadav explained.

Centers of Excellence: Hubs for Innovation and Research

Under Prof. Yadav's visionary leadership, SPSU has established several Centers of Excellence, which are central to the university's strategy of fostering innovation, research, and industry collaboration. These centers serve as incubators for new ideas and as platforms where students and faculty can collaborate with industry experts to solve real-world problems.

The Centers of Excellence include:

- Artificial Intelligence and Machine Learning (AIML)
- Cyber Security
- Robotics
- Semiconductor and IoT
- Environmental Science and Sustainability
- Business Analytics

- Fintech and Blockchain

In addition, the university is setting up a Design Lab to encourage creativity and interdisciplinary collaboration, with a focus on design thinking and innovation. "Our Centers of Excellence are at the heart of our academic vision. They provide students with the opportunity to engage in cutting-edge research and gain practical experience that will set them apart in the job market," Prof. Yadav noted.

11th Convocation Ceremony: Celebrating Excellence

SPSU will host its 11th Convocation Ceremony on November 8, 2024, with former UGC Chairman, Prof. Ved Prakash, as the chief guest. The event will celebrate the achievements of graduating students and highlight their contributions to SPSU's legacy of academic excellence. "Convocation is a momentous occasion, not just for our students but for the entire SPSU community. It's a time to reflect on our accomplishments and look ahead to the future with optimism," Prof. Yadav said.

The convocation will also serve as an inspiration to the university's current and future students, showcasing the heights that can be reached

through hard work and dedication.

Shaping the Future: A Visionary Approach to Education

Prof. Prithvi Yadav's leadership has transformed SPSU into a beacon of academic excellence and industry collaboration. His vision of integrating education with real-world industry demands has positioned the university as a leader in preparing students for the future. From expanding the university's global presence to launching new programs and strengthening industry ties, Prof. Yadav's approach is setting a new standard for higher education.

"SPSU is not just a place of learning; it's a place where future leaders are made. Our focus is on holistic development, ensuring that our students are not only academically sound but also ready to tackle the challenges of a rapidly changing world," Prof. Yadav concluded.

As SPSU moves forward, under Prof. Yadav's guidance, the university is poised to continue shaping the future of education and empowering the next generation of leaders with the skills, knowledge, and innovation needed to succeed in a globalized world.
